

VIET ANH TRAN

Ho Chi Minh City, VietNam | tranvietanh1803@gmail.com | 0365899252 | Github: github.com/henrytran1803

Summary

Experienced iOS Developer with a strong foundation in Swift, SwiftUI, and MVVM architecture, seeking to leverage expertise in mobile application development to deliver high-quality, scalable solutions and drive user engagement for innovative and impactful projects.

Education

Posts and Telecommunications Institute of Technology.

Ho Chi Minh City, VietNam

Engineering of Information Technology

Relevant Coursework: Mobile Application Development, Data Structures & Algorithms, Object-Oriented Programming

Experience

Bixso

Ho Chi Minh City, VietNam

Position: *iOS Developer*

April 2025 – Present

- Developed an AI-powered virtual assistant iOS application enabling real-time user interaction with cloud-based AI agents.
- Designed and implemented SwiftUI interfaces and interaction flows for conversational experiences.
- Integrated cloud APIs for AI processing, authentication, and real-time data exchange.
- Collaborated closely with AI/backend teams to align API contracts and optimize response latency.
- Applied MVVM and SOLID principles to ensure scalability and maintainability.

FitSo Hub

Ho Chi Minh City, VietNam

Position: *iOS Developer*

November 2025 – Present

- Developed and maintained core features for a fitness social platform, including booking, scheduling, and user engagement flows.
- Implemented and optimized social features such as activity feeds, user interactions, and content updates.
- Maintained and refactored legacy codebase to improve performance and stability.
- Integrated RESTful APIs and handled complex business logic for booking and social modules.
- Worked with backend and product teams to deliver new features and iterative enhancements.

Personal Projects

Ho Chi Minh City, VietNam

iOS Developer

2023 – Present

- **Count To Success (Productivity App)**
Developed a Pomodoro-based productivity app with daily streak tracking. Used SwiftUI for UI and Realm for offline data persistence. Released on the App Store.
- **Habito (Productivity App)**
It helps you form new positive routines through small, consistent actions every day. Whether you want to read more, exercise regularly, or improve your focus, Habito guides you to build habits that stick.

Leadership & Activities

Team Lead

Posts and Telecommunications Institute of Technology

Social Health Project

2022 – 2023

- Led a team of 4 developers to design and deliver a social health mobile app.
- Defined app architecture (MVVM) and reviewed pull requests to ensure code quality.
- Coordinated with backend and designer to align API contracts and UI flows.
- Developed core features: workout tracking, meal planning, and community feed.

Skills & Interests

Technical: Swift, UIKit, SwiftUI, Combine, CoreData, Firebase, REST APIs, MVVM, SOLID, Git, Xcode

Language: English (TOIEC 745), Vietnamese (Native)

Interests: iOS app development, reading, learning new technologies, playing sports
